| <b>Aim of the Lesson / Objective:</b> <i>Statement of what you want students to do (skill) and/or know (knowledge). Students will...</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                    |
| MONDAY<br>AUG 24                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | TUESDAY<br>AUG 25                                                                                                                                                                                                                                                                          | WEDNESDAY<br>AUG 26                                                                                                                                                                                                                                                                                                                                                          | THURSDAY<br>AUG 27                                                                                                                                                                                                                                                                                            | FRIDAY<br>AUG 28                                                                                                                                                                                                                                                                                   |
| Students will present their product to a review panel and defend it under questioning, and evaluate peer designs against a shared rubric.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Students will finish presenting and defending their designs, then identify what the strongest design solutions had in common.                                                                                                                                                              | Students will analyze a real production problem and identify the problem, the people affected, and the missing information.                                                                                                                                                                                                                                                  | Students will generate three options for a production problem, weigh what each one costs, and defend a decision with evidence.                                                                                                                                                                                | Students will review the week's key ideas in a competitive review game and state the one takeaway they will carry forward.                                                                                                                                                                         |
| <b>Employed Language Domain(s) Objective:</b> <i>How students achieve the objective – Listening, Speaking, Reading, Writing. Students will...</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                    |
| Students will collaborate in teams to investigate engineering problems, communicate their findings, and present their solutions. They will listen to team members' ideas, discuss potential solutions, read relevant technical materials, and write explanations of their designs and findings.                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                    |

| Clarify directions (CD); Extra time (ET); Peer and Native Language Support (PN); Pre-teach vocabulary (PV); Rephrase, Repeat, Slow Down (RS); Visual Cues (VC); Wait time (WT); Pictorial Representation (DP). GROUPING: students are seated in mixed-proficiency small groups so emergent bilingual students hear and use the academic vocabulary in context, rehearse with a peer before whole-class response, and can be pulled as a small group for re-teach (PN, WT). ONE-ON-ONE: individual teacher explanation is available on request every period; directions are restated and modeled individually at the student desk after whole-class delivery (CD, RS, VC). |                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                    |
