| <b>Aim of the Lesson / Objective:</b> <i>Statement of what you want students to do (skill) and/or know (knowledge). Students will...</i>                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                |
| MONDAY                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | TUESDAY                                                                                                                                                                                                                                                                                                                                                           | WEDNESDAY                                                                                                                                                                                                                                                                                                                    | THURSDAY                                                                                                                                                                                                                                                                                                                                                                              | FRIDAY                                                                                                                                                                                                                                                                                                                                                                                                         |
| Students will create a freeCodeCamp account with their school credentials and complete the first two course items.                                                                                                                                                                                                                                                                                                                                                                                                                              | Students will explain why readable code matters, apply naming conventions, and begin their first guided build.                                                                                                                                                                                                                                                    | Students will follow a guided build to produce a working program and identify its input, process, and output.                                                                                                                                                                                                                | Students will build a working program from a goal statement without step-by-step instructions and debug it using error messages.                                                                                                                                                                                                                                                      | Students will complete course items 1 through 4 and explain how their own program works line by line.                                                                                                                                                                                                                                                                                                          |
| <b>Employed Language Domain(s) Objective:</b> <i>How students achieve the objective – Listening, Speaking, Reading, Writing. Students will...</i>                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                |
| Students will collaborate in teams to investigate engineering problems, communicate their findings, and present their solutions. They will listen to team members' ideas, discuss potential solutions, read relevant technical materials, and write explanations of their designs and findings.                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                |

Clarify directions (CD); Extra time (ET); Peer and Native Language Support (PN); Pre-teach vocabulary (PV); Rephrase, Repeat, Slow Down (RS); Visual Cues (VC); Wait time (WT); Pictorial Representation (DP). GROUPING: students are seated in mixed-proficiency small groups so emergent bilingual students hear and use the academic vocabulary in context, rehearse with a peer before whole-class response, and can be pulled as a small group for re-teach (PN, WT). ONE-ON-ONE: individual teacher explanation is available on request every period; directions are restated and modeled individually at the student desk after whole-class delivery (CD, RS, VC).
